

CLEANLINE DX

HOT

0.5%

High strength chlor/caustic liquid cleaner for the removal and prevention of fat and protein deposits in DX bulk tanks, milk silos and circulation cleaning.

Product benefits:

- High levels of sequestrants for effective fat and protein removal
- Effective in hard water areas
- Non-foaming, easy rinsing

Ordering information:

- 5829 – 25 litre (50 washes)
- 5830 – 200 litre (400 washes)
- 5831 – 1,000 litre (2,000 washes)

Shelf life:

- 1 year from date of manufacture

Storage instructions:

Store between 0° to 25°C
Keep out of direct sunlight

Product application:

1. Use product as per tank manufacturer's instructions or at 0.5% dilution.
2. Calculate dilution using 100 litres water per 1000 litre volume e.g. 10,000 litre bulk tank may need 100 litres water for the main wash.
3. Peracetic acid or hypochlorite may be used in the final rinse at 100ml in 100 litres water.
