

UDDERSHIELD TEAT WIPES

Extra strong chlorhexidine gluconate impregnated wipes for effective cleaning of teats prior to milking.

PRODUCT BENEFITS:

- Chlorhexidine impregnated wipes for fast and effective teat skin preparation.
- Rapid drying and extra strong - for faster and more efficient milking routines.
- Extra-thick wipe to tackle heavy soiling and help reduce bactoscan and cell counts.
- Manufactured in white to help with early identification of new infections.

INSTRUCTIONS FOR USE:

Pre-milking use:

1. Use 1 wipe per cow or as necessary and ensure teats are cleaned thoroughly prior to unit application.
2. Can also be used for cleaning gloved hands between cows and for surface cleaning.
3. Dispose of after use.

SHELF LIFE:

12 months from date of manufacture.

STORAGE:

Store between 0°C to 25°C.

Keep out of direct sunlight.
